# Horse & Donkey Sponsorship

On average, it costs approximately \$150 per month per horse to provide a balanced diet of quality hay, grain, and custom supplements as well as essential care like dental, veterinary, chiropractic and hoof care. In addition to the expenses to keep our equines healthy and fed, there is also the expense of hired help to exercise, groom and care for the herd every day.

Sponsorships are very important as they help to support the backbone of our program: our wonderful therapeutic riding. Sponsors receive level specific benefits, including website and social media recognition, images, window clings, and opportunities to participate in Sponsor Days.

Watch our [Facebook page](#) for our weekly Equine Sponsorship highlights!
